

Finish Carpenter

Position Summary

Bohan is seeking finish carpenters with experience in high-end and custom residential construction. We seek a knowledgeable team player who puts attention to detail first, works well with others, effectively communicates, and respects our process and values to get the job done.

The Finish Carpenter is responsible for framing, basic electrical and plumbing, and finishing touches after a structure's primary building is done. This includes installing baseboards, molding, stairs, doors, windows, cabinets, and hardwood floors. This position calls for the ability and confidence to work under the direction of the Project Manager and with various Bohan teams and subcontractors daily to meet expectations.

This position will travel to various project sites in Annapolis, MD. A valid driver's license and reliable transportation are required.

Qualifications (Knowledge, Skills, & Abilities)

- Ability to work with extreme attention to detail
- Sufficient experience and knowledge in residential construction, including building codes
- Ability to solve problems of the project using an efficient and effective way of construction

Education and Experience Requirements

- At least 3 years of experience in custom residential remodeling and construction. Tile work is also preferred.
- Must have all hand and electrical tools necessary to fulfill projects
- High school diploma/GED

Other Requirements

- Must have a work truck
- Valid driver's license
- Clean driving record
- Ability to travel to job sites and vendor locations in Annapolis, Maryland, and surrounding areas
